| 17. CAB ROOF | |

ORK BIG TRAKK

Product code : IA-ORK-T-021
99590103068

This kit contains all the pieces required to make a Ork Halftrakk
To glue the resin pieces either together or to plastic components use Citadel
Super Glue.

NOTE: We have cast this conversion kit using the most advanced techniques
and the best quality resin, but due to the nature of the casting process your
model may contain very slight air bubbles. These can easily be filled with
model filler or super glue. Any slight warpage of thin parts can easily be
corrected by immersing the part in hot tap water for about 1 minute then
carefully bending it back into shape.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust
mask or respirator when sanding or sawing resin parts.

Stick track section 4 to the drive wheel BEFORE attaching to the transaxle. This will assist you in lining up the wheel to fit the other track sections.

DRIVE PULLEY

Attach the road wheels so that they sit level with Track Section 3.
